

Find a map or a globe of the world. Look at all the nations and find a country other than your own where you know someone or where there is a **COMMUNITY OF CHRIST CONGREGATION**. How far are they from your homeland? Pray for this person or **CONGREGATION**. Feel the way God connects us in the same way the oceans connect the continents.

Use a piece of string or yarn to measure, on your globe or map, the distance between the two countries. Glue it in your journal. Label one end with your name and homeland and the other end with the name and homeland of the person or congregation for whom you are praying.
