

Justice for Women Dignity for All

October 23-25

2009
PEACE
COLLOQUY

This year's Peace Colloquy has been designed to help women and men explore ongoing women's justice issues, recognizing that all people—created in God's image—are to be treated with fairness, justice, and dignity. Unfortunately, women and children experience higher levels of poverty all over the world. In modern wars they suffer much greater violence. Come join us as we seek ways to help restore the worth of all persons.

This year's Community of Christ International Peace Award will be given to **Halima Bashir**—young adult, medical doctor, and activist for women and children of Darfur.

Other keynotes:
