Country of Origin Index
Community of Christ Sings (Herald House, 2013)

Countries are grouped under seven continents: Africa, Asia, Europe, North America (includes Caribbean), Oceania (includes Australia and Pacific Islands), and South America. When countries or regions span two continents (such as Russia and Latin America), they are listed twice in the index. The country of origin refers to the primary nationality of the author or composer—not necessarily where an individual hymn was written.
